Re: Well Enclosure

RE: Well Enclosure
Dear Sirs,
I am writing to you concerning the well enclosure project at the new building on the south side of the college. The project has been completed and I would like to thank you for your support.
The well enclosure is made of concrete and is located in front of the new building. It is a simple structure that provides a safe and secure way to access the well. The well itself is a standard 10' diameter by 10' deep.
The cost of the project was approximately \$10,000. This includes the cost of materials, labor, and equipment. The project number is 10093 in the financial system.
I hope you will accept my apologies for any inconvenience caused during the construction process. I appreciate your understanding and support.
