The next matter of business discussed was the proposal by the R. W. Beck, John Morse & Associates Engineering and Architectural firm. This proposal was read and discussed by the members of the board.

The Board specifically discussed the offer of this engineering and architectural firm of its services in site selection. The fee of \$2,500.00 for the services of such firm was discussed. It was pointed out by Mr. Shields that our budget for this year did not contain any funds budgeted for this purpose and after discussion, it appeared to be the concensus of the members of the Board that the Trustees were not in a position at this time to obligate the District for this expense, which had not been included in the budget for the current fiscal year.

Discussion then followed concerning the need to take action regarding the offer of the Civic Auditorium Group and the possibility of a site selection. Mr. Wiseman recommended that the board name one representative from the Junior College Board to work with the Twin Falls Chamber of Commerce, City Commission, Civic Auditorium Board, and any

locations so that the member from the College Board could then return

to the Board of Trustees and recommend available sites to the Board.
