December	679,000	576,000	103,000

Approximate savings in dollars for the two months \$2100.

This savings was made even though the New Vo-Tech Building was added during the year.

Gasoline consumption for the same two month comparison also showed a 197 gallon decrease.

should be on the requested rate increase. No action was taken.

PRESIDENT'S REPORT CONTINUED:

The Governor's message to ^{the legislature} ~~Congress~~ indicated a \$600 budget increase for the two junior colleges.

Dr. Tavlör expressed optimism that the Governor would review his recommendation on the basis of the following:

1. The budget had been presented to the State on the basis of a percentage increase. The State Budget Office made their computation on FTE students and would have had to ~~the 1972-73 figures as they had not received the~~

~~In previous years the FICA costs to the institution had been~~

This year the College has been asked to include the FICA in the regular budget request. This would mean that the Governor's message would actually mean a decrease by the amount of FICA or approximately \$60,000 in his proposed budget.

3. In prior years the College costs for Public Employees Retirement have also been withheld from the appropriation actually given to the College. This would further ~~also~~ reduce the budget proposal by the Governor.

ADJOURNMENT declared 8:45 PM.
