SUBJECT: STUDENT HEALTH INSURANCE

Each year we review our student health insurance and attempt to make decisions in the best interest of our students. We are currently asking all full-time students to sign up for the insurance or to sign a waiver indicating they do not want the insurance.

We have been dissatisfied with the service from our current carrier, the Equitable Life Assurance of the United States in New York. The agent is Capital Planning of Boise and it is almost impossible to get valid reporting from them on our claims history. We do get individual claims information but, again, response and service from them by telephone is also very unsatisfactory.

We are recommending that the insurance be changed to Orange State and Health Insurance Company. They are an A rated company and the insurance is administered by Parker and Parker Consultants of St. Petersburg, Florida. They also have a representative in Idaho. Our present insurance rates are \$175.00 per year; the new rates would be \$173.00 per year and it appears that the schedule of benefits is equal or better and the service and reporting would be much improved.
