To: President Meyerhoeffer and the College of Southern Idaho

Board of Trustees

From: Mike Mason

Saratan Bina Bina Bina Coministan Constan

We received only two bids for the specified equipment. The bids are as follows:

Shilo Automatic Sprinkler, Inc.

\$25,291.87

Based upon a review of the bids by Dick Sterling and Don Buettner, I recommend that we accept the low bid of Shilo

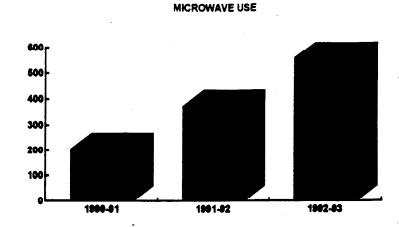

Funding for the purchase is from the Plant Facilities Fund.

December 17, 1993 mambara of the Doord of Trustage The following report is a record of the work of the Human Resources Development (HRD) donortment since its incention two years and. We have outlined several achievements realized through our HRD Plan piloted under Title III sponsorship. We are proud of these Presently, we want to discuss the future of HRD at CSI. After our initial efforts we have found several niches of human resources administration which we believe we can best serve. There are three: 1. Employment Policy development Procedures and practices Communication (i.e., Affirmative Action, etc.) 2. Staff Training & Development Policy development (i.e., safety) Orientation Brown Bags Supervisory training Customer service 3. Employee Relations Sexual harassment Conflict resolution, etc.

HUMAN RESOURCES DEVELOPMENT TWO-YEAR PLAN

<u> </u>	Spring '94	Review job descriptions Supervisory training on hiring practices & Affirmative Action (AA)
		Begin safety committee
	Summer '94	Staff training Complete safety manual
		Concentrate on assisting with hiring for vacancies Accreditation (finalization of committee work)
	Fall '94	Orientation of new and current staff Update AA plan
		Develop staff training initiative Supervisory training
OI L. Turn	इप्रस	Approximation completion
		Update salary study with 1994 figures
		* Assist in the development of a student orientation class in the areas of diversity, sexual harassment and personal development
	Summer '95	Staff training Concentrate on assisting with summer hiring for vacancies
<u></u>	Fall '95	Supervisory training Origination of pow/oursent stoff

* Projections of foreseen activities

Note: In the event that our location is changed over this period of time, we will need to reevaluate our office procedures, service to our customers (staff, administration, faculty and public), hours, etc., in order to improve the human resources system.

Idaho Student Summit

Statement of Goals

We the assembled representatives of Idaho's state funded institutions of higher education, devote ourselves to the following common goals and principles. It is our hope that the Idaho State Board of Education, the Idaho State Legislature and the Governor of Idaho recognize and

and of 1. Thereallower

Cf. Colleges and universities require adequate infrastructure, facilities, and support services for students to excel in their studies. Campuses should be free of

which to choose. The curriculum should reflect the employment needs of students in the 21st Century and beyond.

C. Idaho's higher education system must offer the

possible Students should be able to complete their entire

Article Two: Promoting Diversity

A. The government of the State of Idaho should be devoted to providing an advanced education for all Idahoans-regardless of gender, race, religion, national origin, sexual preference, physical challenge or veteran status.

B. Digher education in Idaho should stress the understanding of diversity issues and encourage students to educate themselves to the many cultures that make Idaho great.

Article Three: Promoting Student Rights

A. Students should be free to express their views in the open forum of education, without harming an individual or the process. To standards or sanctions should be imposed that violate a students natural right to free expression or speech.

B. Student journalist and writers should have the ability to express themselves on any issue without threat to

the freedom of the press.

I Polit students chould for able to enion all the

This includes the responsible use of alcohol.

, Article Four: Promoting Student Involvement

A. Students should have open access to the halls of government. Their opinion should be solicited by the respective colleges and universities, the State Board of

B. To further facilitate the flow of information from students to the state government, a student should be placed on the State Board of Education.

Os a voting or non-voting member of the Board, this state will will as the state of the state and government.

C. Council of Student Body President's to meet before the State Board of Education Meetings and voted member to serve on the State Board of Education.

ASSOCIATED STUDENTS OF IDAHO STATE UNIVERSITY STUDENT SENATE SESSION XXVI, TERM I

IN THE SENATE A RESOLUTION #308

•

WE THE ASSOCIATED STUDENTS OF IDAHO STATE UNIVERSITY DO NOT SUPPORT THE IDAHO STUDENT SUMMIT STATEMENT OF GOALS. ARTICLE IV. SECTION R

WHEREAS: A student being placed on the State Board of Education

would undermine the influence that students already have.

WHEREAS: All of the schools for higher education would not be

fully represented with a single member on the Board. One student on the Board of Education could not project all

student interest in Idaho.

WHEREAS: We were not convinced that this promasition

more power as students, rather, it would weaken our direct communication with the Board. The communication between the State Board and the students is adequate and

equally represented.

Introduced by Senator Chris Christo

THEREFORE BE IT RESOLVED that the Associated Students of Idaho State University desire to continue in the <u>effective</u> avenues that we are presently pursuing with the State Board of Education.
