REVENUES

Tuition and Fees are projected to increase over last year's budgeted figure by \$128,700 for academic and vocational credit

\$2.30 per credit or \$25 per semester for a full time student.

2. COUNTY TUITION

Due to this we are estimating County Tuition

3. STATE APPROPRIATION

The base State appropriation increased by \$443,900. This does not include the \$80,000 technology appropriation which we

4. COUNTY PROPERTY TAXES

Property taxes are estimated to increase by approximately 7.6% over our actual receipts from last year. We received more than the original \$2,909,600 budgeted last year due to

due to new construction and the increased valuation of property rather than tax rate increases.

Revenue from the Inventory Tax Phaseout, which rises with property taxes, is expected to increase by approximately \$57,700.

5. INTEREST REVENUE

Due to a slight climb in interest rates and our fund balance, we are anticipating interest earnings to increase by \$30,000.

6. OTHER REVENUE

We are proposing changing our current policy of depositing rental revenues into the General Fund to a policy of depositing them into the Plant Facility Fund. This will allow us to fund some critical long term maintenance projects over the next five years.

As a result of this change, Other Revenue will decrease by approximately \$107,400 to \$23,500.

EXPENDITURES

1. SALARIES

Salaries were increased by approximately 5%. Some rank and position adjustments were also made.

2. RETIREMENT BENEFITS

Health insurance premiums remained stable at \$2,795 per year (\$233 per month) for FY 95. The final phase of the retirement

3. PERSONNEL COSTS

a. The Administration personnel costs reflect the salary savings due to a one year leave of absence of the Executive Vice

b. The Human Resource department was partially funded by Title III in FY 94. In FY 95 they are fully funded by the General Fund.

c. The Library personnel costs were reduced by shifting the salary of the Audio Visual Technician to Academic Instruction.

d. Student Services personnel costs were increased by the General Fund fully funding of a former Title III Center for New Directions instructor, the addition of two part time outreach employees to the staff of the Center for New Directions and the

e. The Museum has been moved to Fund 91 to operate in anticipation of the opening of the planetarium. The General fund will transfer \$235,000 to Fund 91 in FY 95 to cover operational costs. The increase in personnel costs is due to the hiring of a planetarium director in March of 1995.

f. The Continuing Education personnel cost increases are the result of higher pay for part time teachers and the transferring of an electronic technician from the Maintenance department to Continuing Education.

g. The increases in personnel costs in the Computer Center, Resource Development, Printing & Graphics and Physical Plant are the result of raises given to existing employees.

h. The Academic Instruction personnel costs reflect the hiring of three new instructors, rank adjustments and regular raises.

i. The Vocational Instruction personnel cost increases and regular raises.
