Management Information Systems  
Program M.S. Summary Report December 2017

1

1. Introduction

The purpose of this report is to provide a comprehensive overview of the Management Information Systems (MIS) program at Eastern Kentucky University. The program is designed to equip students with the knowledge and skills necessary to succeed in the field of MIS. The curriculum includes courses in computer systems, data management, and organizational behavior. The program also offers students the opportunity to gain practical experience through internships and research projects.

The MIS program is a highly competitive and sought-after degree. It provides students with a strong foundation in both technical and business aspects of the field. The program's focus on practical application and research makes it an excellent choice for students who are interested in pursuing a career in MIS. The program's faculty members are highly qualified and experienced in their respective fields, providing students with the best possible education and mentorship.

The MIS program is a highly competitive and sought-after degree. It provides students with a strong foundation in both technical and business aspects of the field. The program's focus on practical application and research makes it an excellent choice for students who are interested in pursuing a career in MIS. The program's faculty members are highly qualified and experienced in their respective fields, providing students with the best possible education and mentorship.
