CSI partners with industry, school districts and others including sister institutions of higher education. Probably more than any other industry, CSI has developed a relationship with health care providers in Magic Valley and the State of Idaho. The critical shortage of nurses and other health care professionals has prompted the College to expand its programs. Although the number of graduates in the RN and PN programs have nearly doubled, there is still a waiting list for these programs. Health science programs will be expanded with the future addition of the new Health Science Center.

Core Functions/Idaho Code

The College of Southern Idaho was established and is governed under Chapter 21 of Title 33, Idaho Code.
