## STRATEGIC GOAL 2: STUDENT RETENTION

Strategy #2: The College of Southern Idaho will provide high-impact learning and student support systems that provide a sense of belonging for our diverse student population and that enhance persistence and retention.

Objective 2.1: Establish robust systems and processes that support student retention.

Performance Measures:

2.1.1 Increase the percentage of new first-time, full-time, degree-seeking students retained or graduated the following year (excluding death or permanent disability, military, foreign aid service, and mission) (Source: IPEDS)

Objective 2.2: Offer instructional programs and support systems that help underprepared students move into college-level coursework rapidly and successfully.

Performance Measures:

2.2.1 Increase the percentage of degree-seeking students taking a remedial math course who

STRATEGIC GOAL 3: STUDENT SUCCESS

Strategy #3: The College of Southern Idaho will provide instructional and student support services that allow students to successfully and efficiently complete their educational goals.

[3] Growth rates have been established based upon a current uptick in interest in the trades and Idaho Launch marketing and funding. Following this initial jump in enrollment, a more sustainable 3% growth rate has been established.

[4] The college has established a goal of enrolling 4500 non-dual credit students per semester by 2029. This measure supports the Goals 2.C.I and 2.C.II (60% or more of HS graduates attend college within 1 year; 80% or more within 3 years).

[5] The college has established a goal of increasing FTE to 4,500 in the fall of 2029. This measure supports the Idaho State Board Goals 2.C.I and 2.C.II (60% or more of HS graduates attend college within 1 year; 80% or more within 3 years).

[11] The college has worked to reduce the number of credits earned at graduation through advising and the use of focused graduation plans.

[12] Research at CSI has revealed that the most significant predictor of college success for entering students is high school grade point average. Further, data show that males, and students who self-identify as Hispanic, tend to arrive at CSI with lower high school grade point averages than other populations. With the goal of addressing equity issues within college completion, CSI has elected to track the success of students who arrive at CSI with a low high school grade point average, and to strategically direct services toward them in order to close achievement gaps between those students and students who enter with a grade point average of 3.0 or higher.

[13] This benchmark has been established based upon an average of the past four years of placement. (Source: Idaho CTE Follow-Up Report)

[14] The college is working to better support students who intend to transfer after graduation. (Most recent dddh06 Tnp[F1 9 Tf1 0 0 1 72.024 590.02
